- E - Far West Texas
- F - Region F
- G - Brazos G
- H - Region H
- I - East Texas
- J - Plateau
- K - Lower Colorado
- L - South Central Texas
- M - Rio Grande
- N - Coastal Bend
- O - Llano Estacado
- P - Lavaca

In response to the drought of the 1950s and in recognition of the need to plan for the future, the legislature created the Texas Water Development Board (TWDB) to develop water supplies and prepare plans to meet the state's future water needs. In 1997, the legislature established a new water planning process, based on a "bottom-up," consensus-driven approach. Coordinating this water planning process are 16 planning groups, one for each regional water planning area (see map). The planning groups, each made up of about 20 members, represent a variety of interests, including agriculture, industry, environment, public, municipalities, business, water districts, river authorities, water utilities, counties, and power generation.

TEXAS WATER DEVELOPMENT BOARD
