

Task Force Recommendations

November 2004

Targets and goals established by an entity should consider:

- A minimum annual reduction of one percent in total gpcd, based upon a five-year rolling average, until such time as the entity achieves a total gpcd of 140 or less
- A statewide goal to reduce total statewide water demand to an average of 140 gpcd
- Any guidelines that may be adopted by the SB-1 Regional Water Planning Group in which the entity developing the Municipal Water Conservation Plan is located

2014 Conservation Plans

365 Entities – range of 46 to 831 gpcd

5-Year Goal – 193 \leq 140 gpcd – 147 avg

10- Year Goal – 219 \leq 140 gpcd – 141 avg

140 gpcd with 1 percent reduction – 15

1 percent reduction – 18

.50 percent reduction – 1

<140 gpcd with 1 percent reduction – 3

<140 gpcd with .25 percent reduction – 1

4 entities mentioned the State, RWPG, TWDB goals

Water Conservation Annual Report Data

	5-year Goal 2009 WCP	2009 Avg	2010 Avg	2011 Avg	2012 Avg	2013 Avg	2014 Avg
Total GPCD	148	156	142	162	149	149	140
Res GPCD	93	101	114	105	92	86	84
Water Loss GPCD	19	17	18	19	19	21	20
Water Loss	11%	11%	13%	12%	13%	14%	14%
