The meeting was called to order at 10:05 am and roll call was taken. The topic of this conference call was the recommendations on an end use reporting tool. The workgroup wanted to have discussion about the tables, reports, flow charts and lists that could be developed through user provided end use data.

The workgroup spent the majority of the time discussing the particulars of the different attributes of a form that would report back information on end uses and water supply.

This working meeting adjourned at 1:45 pm.
